

SOLAR POWER SYSTEM

This kit consists of one or two lamps in redundancy, 12V or 24V, low and/or medium intensity, that must be installed on top of the obstacle.

- Pre-wire solar generator**
- a photovoltaic panel
 - a charge controller
 - long lifetime gel battery
 - an aluminium frame with angle or vertical mounting bracket and battery box
 - optional : 2 lights in redundancy with tilt of the main light to the emergency light in case of failure

The size of the solar panel and of the battery depends on the location of the installation. Please contact us for more information.
